

## **Experimental Faculty Position in High Energy Physics Michigan State University**

The Department of Physics and Astronomy at Michigan State University invites applications for a tenure-system Assistant Professorship in the area of experimental high energy physics. For exceptional candidates, appointment at a more senior level may be considered. The successful applicant will be expected to collaborate with the existing MSU ATLAS experimental group at the Large Hadron Collider at CERN. More information about the department can be found at <http://pa.msu.edu>.

This position is listed on the MSU Applicant Page (<https://jobs.msu.edu>), posting #[541134](#). Applications should be uploaded to MSU's online application site (<https://jobs.msu.edu>) and should include a cover letter, CV, statement of research plans, and a one-page statement of teaching philosophy, [all included in a SINGLE PDF file]. Applicants should provide the names and email addresses of at least four references, and arrange for letters of recommendation to be submitted electronically through the application system. The selection process will begin on November 5, 2018, and review of applications will continue until the position is filled. Questions regarding this position may be directed to Prof. Huston ([Huston@pa.msu.edu](mailto:Huston@pa.msu.edu)).

MSU is an affirmative-action, equal-opportunity employer and is committed to achieving excellence through a diverse workforce and inclusive culture that encourages all people to reach their full potential. The University actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities. MSU is committed to providing a work environment that supports employees' work and personal life, and offers employment assistance to the spouse or partner of candidates for faculty and academic staff positions.
